

*We want to build and launch rockets,  
that's what we are here to do.*

Daily Update: We are making progress but negotiations is a process. Early thing this morning, the team passed its first economic-proposal and now we are waiting for ULA's response. At the end of the day, our mission has not changed. We are here to bring back a strong IAM contract that allows our members to take care of their families, recognizes our hard work and dedication and shows us the respect we deserve for a lifetime of service.
